

# Scenic Reality

By J. B. Pichelski  
Directed by Samantha Wright

Damien Blake has been trying to be a renowned film director ever since they left school. They start their journey with their three best friends, a bleak outlook of society and a desire to create something important. They end their journey with only one of these things. Set against the background of rising university fees and rising university pressures, Scenic Reality is about the trials and fears behind moving into the real world and how some of us desperately try to avoid it.

The Hope Theatre, Islington  
27<sup>th</sup> April 2018, 3PM
